Summary

I am a designer with a passion for helping others through my work. I enjoy crafting simple solutions for complex problems.

My hobbies include hiking, photography, sci-fi books, traveling, investing, and trying new foods.

Work Experience

Senior UX/UI Designer, Senior Consultant

Daugherty Business Solutions, Remote February 2021 - Present

Client: Edward Jones

- Use the Design Thinking process to create experiences that help Financial Advisors do their work more efficiently.
- Work closely with UX Researchers to perform discovery work that drives design decisions. Create prototypes and iterate on designs based on user feedback received in usability testing sessions.
- Facilitate meetings with Product Owners, Business Analysts, UXers, and Developers to gather requirements, present design work, ensure alignment, and plan work implementation.

UX/UI Designer

Chamberlain Group, Oak Brook, IL June 2018 - February 2021

- Designed a web app that connects warehouse dock positions to the cloud. The app allows facility managers to increase the efficiency, safety, and productivity of their warehouse.
- Collaborated with Product Owners, UX Designers, Developers, and Business Analysts to enhance information architecture, interaction design, usability, and UI design.

UX/UI Design Consultant

SWC Technology Partners, Oak Brook, IL January 2018 - June 2018

- Designed and implemented user-centered CRM, Sharepoint, web, and mobile products

Education

UX Academy Immersive Program 2017)

Designlab, Remote

Bachelor of Arts, International Studies, 3.6/4.0 2010-2013)

Loyola University of Chicago, Chicago, IL

Awards: Accenture Digital Hackathon 2017, Local 2nd Place Award
